Parent's Practice Tip # 41:

EARLY AND OFTEN

Today's advice is the simplest: 1. upon leaving the studio, go through the assignment and some of the music immediately at home. 2. Start practicing in small chunks the next day. Again the next day. 3. Two short chunks the next day. Put in real time over the weekend. Shazam! Miracles happen.

If you wait until the weekend to start practice, 95% of what I teach is GONE. We will spend much of the next lesson re-learning and not moving ahead. Beh!

PRACTICE EARLY. PRACTICE OFTEN. AND . . . SMALL COUNTS FOR BIG!
